REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The best art of record was in the First Action On Merit (FAOM). The Examiner rejected the original claims with the programming language GW-BASIC. Furthermore, the Examiner showed a stream operator and type casting in GW-BASIC. the Additional limitation of the programming environment supporting dynamic typing overcomes GW BASIC. Applicant's support for the amendment are well documented in the response to office action on page 5. As is the persuasive argument that GW-BASIC does not support dynamically typing. Therefore, the GW-BASIC environment can not dynamically type the contents of a stream operator.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
